60	Completion of VIP CORALS - Nasugbu	VIP CORALS-Nasugbu	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱735,000.00		₱735,000.00	This project ensures the full completion and operational readiness of VIP CORALS in Nasugbu, supporting research and innovation efforts.
61	Other Structures	Various Offices	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱233,300.00		₱233,300.00	This project involves the construction, improvement, or maintenance of various structures to support institutional operations and services.
62	Construction of Hatchery of VIP CORALS Lobo	VIP CORALS-Lobo	No	Competitive Bidding	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,300,000.00		₱1,300,000.00	This project focuses on the construction of a hatchery facility to support marine biodiversity and research initiatives at VIP CORALS Lobo.
63	Construction of Bicycle Parking Facility	GSO	No	Competitive Bidding	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱2,520,300.00		₱2,520,300.00	This project entails the construction of a designated bicycle parking facility to promote sustainable and eco-friendly transportation.
64	Procurement of Various Office Equipment	Various Offices	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱772,100.00		₱772,100.00	This project involves acquiring essential office equipment to support administrative and operational functions.
65	Procurement of Various Information & Communication Technology Equipment	Various Offices	No	Competitive Bidding	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱9,614,000.00		₱9,614,000.00	This project includes the acquisition of various ICT equipment to enhance digital infrastructure and support operational efficiency.
66	Procurement of Server for Artificial Intelligence	VPRDES	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,000,000.00		₱1,000,000.00	This project includes the acquisition of a server to support Artificial Intelligence applications and data processing.
67	Procurement of Various Communications Equipment	Various Offices	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱68,200.00		₱68,200.00	This project includes the acquisition of various communication equipment to enhance connectivity and information exchange.
68	Procurement of Various Technical and Scientific Equipment	Various Offices	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱151,200.00		₱151,200.00	This project includes acquiring various technical and scientific equipment to support research, experimentation, and academic activities.
69	Procurement of Various Other Machinery and Equipment	Various Offices	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱201,700.00		₱201,700.00	This project includes acquiring various machinery and equipment to enhance operational efficiency and support institutional functions.
70	Procurement of Motor Vehicles	Various Offices	No	Competitive Bidding	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱9,385,000.00		₱9,385,000.00	This project involves acquiring motor vehicles to support the university's transportation and logistical needs.

Code (PAP)	Procurement Project	PMO/ End-User	Is this an Early Procurement Activity? (Yes/No)	Mode of Procurement	Schedule for Each Procurement Activity				Source of Funds	Estimated Budget (PhP)			Remarks (brief description of Project)
					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
71	Improvement of the Material Testing and Calibration Center to include a Biotechnology Research Laboratory	MTCC	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱849,400.00		₱849,400.00	This project entails upgrading the Material Testing and Calibration Center to incorporate a Biotechnology Research Laboratory, enhancing research and testing capabilities.
72	Procurement of ICT Equipment VIP CORALS Nasugbu	VIP CORALS-Nasugbu	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱134,000.00		₱134,000.00	This project involves acquiring ICT equipment to support the operations and research activities of VIP CORALS in Nasugbu.
73	Procurement of Technical and Scientific Equipment VIP Corals Nasugbu	VIP CORALS-Nasugbu	No	Competitive Bidding	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,468,300.00		₱1,468,300.00	This project includes acquiring technical and scientific equipment to enhance research and operations at VIP CORALS in Nasugbu.
74	Procurement of Other Machinery and Equipment VIP Corals Nasugbu	VIP CORALS-Nasugbu	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱128,300.00		₱128,300.00	This project includes acquiring various machinery and equipment to support the operations of VIP CORALS in Nasugbu.
RESEARCH PROJECTS													
1	Pre-Commercialization of Healthy and Innovative Peruvian Banana Snack (Phase I) CHIPS	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱308,760.00	₱308,760.00		This project focuses on the initial phase of pre-commercializing a healthy and innovative Peruvian banana snack, ensuring product development, market testing, and strategic planning.
2	Pilot Testing of Halymenia durvillei for sea-based farming in selected sites in Batangas Province	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱285,107.64	₱285,107.64		This project conducts pilot testing of "Halymenia durvillei" for sea-based farming in selected sites in Batangas Province, aiming to assess its viability, growth performance, and potential for commercial cultivation.
3	Coral Reef Assessment and Biodiversity Database of Marine Protected Areas of Nasugbu	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱202,721.00	₱202,721.00		This project focuses on assessing coral reef health and establishing a biodiversity database for Marine Protected Areas in Nasugbu to support conservation and management efforts.
4	UriSNAP: Development of AI modeling-compatible colometric ink for the determination of albumin and creatinine levels in simulated urine solutions	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,700,892.60	₱916,721.60	₱784,171.00	This project aims to develop AI-compatible colorimetric ink for detecting albumin and creatinine levels in simulated urine solutions, enhancing rapid and accurate health diagnostics.

					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
5	Pre-commercialization Program: Supporting Potential and Relevant IP as Next Generation Business Opportunities towards Acceleration of R&D (SPRINGBOARD) MR. MED: Virtual Medical Training Simulation using Mixed Reality	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,460,700.14	₱1,360,800.14	₱99,900.00	The Pre-commercialization Program (SPRINGBOARD) supports the advancement of potential intellectual properties into viable business opportunities, accelerating research and development. MR. MED is a virtual medical training simulation that utilizes mixed reality to enhance hands-on learning for medical professionals.
6	Pre-commercialization Program: Supporting Potential and Relevant IP as Next Generation Business Opportunities towards Acceleration of R&D (SPRINGBOARD) Tinkering Resource for Internet of Everything (TRIOE) Cloud Development Platform	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,389,616.53	₱1,389,616.53		The Pre-commercialization Program (SPRINGBOARD) accelerates research and development by supporting potential intellectual properties for commercialization. Tinkering Resource for Internet of Everything (TRIOE) Cloud Development Platform is a cloud-based system designed to facilitate the development and integration of Internet of Everything (IoE) applications.
7	Pre-commercialization Program: Supporting Potential and Relevant IP as Next Generation Business Opportunities towards Acceleration of R&D (SPRINGBOARD) Hands-On Reality: Innovating Haptic Gloves for a Tangible Mixed Reality	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,661,693.16	₱1,431,793.16	₱229,900.00	The Pre-commercialization Program (SPRINGBOARD) accelerates research and development by supporting potential intellectual properties for commercialization. Hands-On Reality: Innovating Haptic Gloves for a Tangible Mixed Reality focuses on developing advanced haptic gloves that enhance user interaction in mixed reality environments by providing realistic touch and feedback sensations.
8	SINAG: Automated Maskless PCB Patterning using UV Light	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱629,560.64	₱629,560.64		SINAG: Automated Maskless PCB Patterning using UV Light is a technology-driven solution for precise and efficient printed circuit board (PCB) fabrication. It utilizes UV light for direct patterning, eliminating the need for traditional masks and enhancing production speed and accuracy.

Code (PAP)	Procurement Project	PMO/ End-User	Is this an Early Procurement Activity? (Yes/No)	Mode of Procurement	Schedule for Each Procurement Activity				Source of Funds	Estimated Budget (PhP)			Remarks (brief description of Project)
					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
9	DNA barcoding of marine specimens collected in the Verde Island Passage (VIP)	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱969,132.11	₱720,315.46	₱248,816.65	DNA Barcoding of Marine Specimens Collected in the Verde Island Passage (VIP) aims to identify and catalog marine biodiversity using genetic sequencing. This project enhances species identification, supports conservation efforts, and contributes to the ecological study of one of the world's most biodiverse marine ecosystems.
10	Better Information Yielding Accessible, Hassle-free Experience (BIYAHE): A Mobile Application for Real-Time Location Tracking of Public Utility Vehicle	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱83,000.00	₱83,000.00		Better Information Yielding Accessible, Hassle-free Experience (BIYAHE) is a mobile application designed for real-time location tracking of public utility vehicles. It aims to improve commuter convenience by providing accurate, up-to-date transit information, reducing waiting times, and enhancing overall transportation efficiency.
11	EMERGE: Emergency-related reporting with Machine learning-Enhanced verification, automated responsive messaging, and Geospatial Efficiency	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱94,000.00	₱94,000.00		EMERGE is an emergency reporting system that integrates machine learning for enhanced verification, automated messaging, and geospatial efficiency. It streamlines incident reporting, ensures accurate information dissemination, and optimizes emergency response coordination.
12	PARS: Progressive Web Application-based Appointment System for Rural Health Services	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		PARS is a Progressive Web Application designed to streamline appointment scheduling for rural health services. It enhances accessibility, reduces wait times, and improves healthcare service efficiency in underserved areas.
13	From Sea to Shelf: Utilization of Red Seaweed (<i>Kappaphycus alvarezii</i>) as Bioactive Film Packaging for Soft White Cheese (Kesong Puti) Application	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱96,000.00	₱96,000.00		From Sea to Shelf explores the use of red seaweed (<i>Kappaphycus alvarezii</i>) to develop bioactive film packaging for <i>kesong puti</i> (soft white cheese). This sustainable packaging aims to enhance food preservation while reducing plastic waste.
14	PAGSA-ALATI: Pioneering the development of AGricultural sun-drying Salt modules, Allowing Lean production And Process Transformation	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		PAGSA-ALAT focuses on developing agricultural sun-drying salt modules to optimize salt production. This project aims to enhance efficiency, ensure lean production, and improve processing methods for sustainable salt farming.

Code (PAP)	Procurement Project	PMO/ End-User	Is this an Early Procurement Activity? (Yes/No)	Mode of Procurement	Schedule for Each Procurement Activity				Source of Funds	Estimated Budget (PhP)			Remarks (brief description of Project)
					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
15	Standardization of Shell Design for Side Powered Tricycles	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱94,000.00	₱94,000.00		This project focuses on developing a standardized shell design for side-powered tricycles to improve safety, aerodynamics, and structural integrity. It aims to enhance efficiency, durability, and overall performance for better transportation solutions.
16	Transforming Urban Life: Development of Smart Lamp Post System in Golden Country Homes, Alangilan, Batangas City	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This project aims to develop a smart lamp post system in Golden Country Homes, Alangilan, Batangas City. It will integrate energy-efficient lighting, smart sensors, and connectivity features to enhance urban living, security, and sustainability.
17	Current Care: A Portable Electrotherapy Bandage as an Adjunct Treatment for Acute Wounds	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱186,000.00	₱186,000.00		This project aims on developing a portable electrotherapy bandage designed to aid in the treatment of acute wounds. It aims to accelerate healing through controlled electrical stimulation while ensuring convenience and mobility for patients.
18	MANGGAS: A Wearable Functional Electrical Stimulation (FES) Device with Integrated Thermal Stimulation and Range of Motion (ROM) Monitoring for Optimized Post-Stroke Upper Extremity Recovery	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This project aims to develop MANGGAS, a wearable Functional Electrical Stimulation (FES) device that integrates thermal stimulation and Range of Motion (ROM) monitoring. It is designed to optimize post-stroke upper extremity recovery by enhancing muscle activation and rehabilitation efficiency.
19	Development of Cellulose-Gelatin Anthocyanin-Based pH Responsive Film for Intelligent Food Packaging	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This project focuses on developing a cellulose-gelatin anthocyanin-based pH-responsive film for intelligent food packaging. The film will serve as a freshness indicator, changing color in response to pH variations, helping monitor food quality and safety.
20	Development of Fluorescent Phycobiliprotein-based Cu2+ Sensors from Halymenia durvillei	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This study explores the development of fluorescent phycobiliprotein-based sensors for Cu ²⁺ detection, derived from the red alga Halymenia durvillei. The sensors exhibit strong fluorescence, which selectively quenches in the presence of Cu ²⁺ , enabling sensitive and specific detection. This innovation offers a promising approach for environmental and biomedical applications.

Code (PAP)	Procurement Project	PMO/ End-User	Is this an Early Procurement Activity? (Yes/No)	Mode of Procurement	Schedule for Each Procurement Activity				Source of Funds	Estimated Budget (PhP)			Remarks (brief description of Project)
					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
21	Project HYDROS: IoT-Based Monitoring System for Fish Tank Parameters in Aquaponics	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		Project HYDROS is an IoT-based monitoring system designed to track key fish tank parameters in aquaponics systems. It continuously measures water quality factors such as temperature, pH, and dissolved oxygen, ensuring optimal conditions for fish and plant health. With real-time data access and alerts, this system enhances efficiency, sustainability, and aquaponics management.
22	Utilization of Photo-Fenton Oxidation and Adsorption Using Activated Carbon as a Distillery Treatment System for the Fertigation of Sugarcane	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This study investigates the combined use of Photo-Fenton oxidation and activated carbon adsorption as a treatment system for distillery wastewater. The process enhances pollutant degradation and removes contaminants, making the treated water suitable for fertigation in sugarcane cultivation. This sustainable approach improves water reuse efficiency while minimizing environmental impact.
23	Enhancing Lakatan Banana (Musa acuminata Colla) Shelf Life by Using Mahogany (Swietenia macrophylla) Fruit Husk-derived Activated Carbon as Ethylene Adsorbent	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This study explores the use of activated carbon derived from mahogany (Swietenia macrophylla) fruit husks as an ethylene adsorbent to extend the shelf life of "Lakatan" bananas ("Musa acuminata" Colla). By reducing ethylene levels, the ripening process slows down, preserving fruit quality for a longer period. This eco-friendly approach offers a sustainable solution for post-harvest management and waste utilization.
24	Chicken Egg Pick and Place Cartesian Mechanism	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This project presents a Cartesian mechanism designed for the automated pick-and-place handling of chicken eggs. The system ensures precise and gentle egg transfer using controlled linear motion, minimizing breakage and improving efficiency. Ideal for poultry farms and processing facilities, this mechanism enhances productivity while reducing labor and handling risks.

Code (PAP)	Procurement Project	PMO/ End-User	Is this an Early Procurement Activity? (Yes/No)	Mode of Procurement	Schedule for Each Procurement Activity				Source of Funds	Estimated Budget (PhP)			Remarks (brief description of Project)
					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
25	Development of jelly juice drink made from Citrus microcarpa and Kappaphycus alvarezii Extract	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This study focuses on the development of a jelly juice drink formulated from Citrus microcarpa (calamansi) and "Kappaphycus alvarezii" (seaweed) extract. The combination enhances nutritional value, texture, and stability, offering a refreshing and functional beverage. This innovative product promotes the utilization of local ingredients for a healthier alternative to conventional drinks.
26	Hands-On Reality: Innovating Haptic Gloves for Enhanced Interaction in WebXR Applications	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱15,000.00	₱15,000.00		Hands-On Reality explores the development of innovative haptic gloves designed to enhance user interaction in WebXR applications. These gloves provide realistic tactile feedback, improving immersion and precision in virtual and augmented reality experiences. By integrating advanced sensors and actuators, the project aims to bridge the gap between digital and physical interactions for more intuitive user engagement.
27	Mixed-Reality Based Mapping Platform for Cultural Heritage Sites and Tourism Destinations in Nasugbu, Batangas	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱100,000.00	₱100,000.00		This project develops a mixed-reality mapping platform to showcase cultural heritage sites and tourism destinations in Nasugbu, Batangas. By integrating augmented and virtual reality, the platform provides immersive and interactive experiences for visitors, enhancing engagement and historical appreciation. This innovative approach promotes local tourism while preserving cultural heritage through digital storytelling.
28	TinyTrack: A Management and Monitoring Tool for Child Development Centers	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱58,000.00	₱58,000.00		TinyTrack is a management and monitoring tool designed for child development centers to streamline administrative tasks and track children's growth. It provides real-time updates on attendance, health, and learning progress, ensuring efficient record-keeping and communication between educators and parents. This digital solution enhances childcare management, promoting a more organized and data-driven approach to early childhood development.

Code (PAP)	Procurement Project	PMO/ End-User	Is this an Early Procurement Activity? (Yes/No)	Mode of Procurement	Schedule for Each Procurement Activity				Source of Funds	Estimated Budget (PhP)			Remarks (brief description of Project)
					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
29	IRIN Project	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱105,100.00	₱105,100.00		The International Research Journal on Innovations in Engineering, Science, and Technology (IRIN Journal) is a peer-reviewed publication dedicated to showcasing cutting-edge research and advancements across multiple disciplines. It serves as a platform for scholars, engineers, and scientists to share innovative solutions, emerging technologies, and groundbreaking discoveries. With a focus on interdisciplinary collaboration, the journal aims to foster knowledge exchange and drive progress in engineering, science, and technology.
30	Procurement of Supplies, Materials and Services for the Operationalization of Research Centers	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,215,400.00	₱972,400.00	₱243,000.00	This project focuses on the procurement of supplies, materials, and services essential for the operationalization of research centers. It ensures the acquisition of high-quality equipment, laboratory materials, and technical services to support research activities. By streamlining procurement processes, the initiative aims to enhance research efficiency, innovation, and sustainability within the centers.
31	Procurement of Supplies, Materials and Services for the Operationalization of STEER Hub	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱350,000.00	₱350,000.00		This project facilitates the procurement of supplies, materials, and services** necessary for the operationalization of the **Science, Technology, Engineering, Environment, and Research (STEER) Hub. It ensures the acquisition of essential equipment, laboratory resources, and technical support to enhance research and innovation. By streamlining procurement, the initiative strengthens the hub's capability to drive scientific advancements and interdisciplinary collaboration.
32	Priority Big Research Projects	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱3,080,277.80	₱3,080,277.80		Priority Big Research Projects focus on high-impact, large-scale studies aimed at addressing critical scientific, technological, and societal challenges. These projects receive strategic funding and resources to drive innovation, interdisciplinary collaboration, and transformative solutions. By prioritizing key research areas, they contribute to national and global advancements in science, engineering, and sustainable development.

					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
33	Integrating Predictive Model for Mapping Seagrass and Coral reefs with Analysis of Blue Carbon Yield in Selected sites in Batangas Province (ISAY Batangas Project)	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,956,088.20	₱1,956,088.20		The ISAY Batangas Project aims to integrate predictive modeling for mapping seagrass and coral reefs in selected sites in Batangas Province. It also includes the assessment and analysis of blue carbon yield to support marine ecosystem conservation and climate resilience efforts.
34	Exploring Teaching Excellence and Learning Effectiveness Towards Achieving Academic Excellence at BatStateU-TheNEU	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱199,466.00	₱199,466.00		This project aims to explore the dimensions of teaching excellence and learning effectiveness in BatStateU-TheNEU. It seeks to generate evidence-based insights that will inform strategies for enhancing academic quality and achieving institutional excellence.
35	Development of an in-field Electrochemical Impedance Spectroscopy module for Lifetime degradation analysis of EV Batteries within a Swapping Network	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,538,968.00	₱1,038,968.00	₱500,000.00	This project focuses on developing an in-field Electrochemical Impedance Spectroscopy (EIS) module designed for real-time lifetime degradation analysis of electric vehicle (EV) batteries. The system will be optimized for deployment within battery swapping networks to support predictive maintenance and ensure energy efficiency.
36	Development of SPIKES App for Basketball (Skills and Performance Inventory as Kinesiological Assessment for Empowerment of Student-Athletes)	Research	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱198,440.00	₱198,440.00		This project entails the development of the SPIKES App (Skills and Performance Inventory as Kinesiological Assessment for Empowerment of Student-Athletes), a digital platform designed to assess and monitor the basketball-related skills and physical performance of student-athletes. The app aims to support data-driven training, enhance athletic development, and empower coaches and athletes through kinesiological evaluation tools.
EXTENSION PROJECTS													
1	CODEX	ESO	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱1,043,286.30	₱1,043,286.30		CODEX is a digital learning initiative by Batangas State University focused on developing high-quality online courses for extension service delivery. It ensures accessibility, interactivity, and effectiveness through structured content, feedback mechanisms, and quality assurance. By transitioning from traditional training to online platforms, CODEX provides a more flexible and inclusive learning experience for diverse sectors.

Code (PAP)	Procurement Project	PMO/ End-User	Is this an Early Procurement Activity? (Yes/No)	Mode of Procurement	Schedule for Each Procurement Activity				Source of Funds	Estimated Budget (PhP)			Remarks (brief description of Project)
					Advertisement/P osting of IB/REI	Submission/O pening of Bids	Notice of Award	Contract Signing		Total	MOOE	CO	
2	SPARTAN1M	ESO	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱979,968.75	₱613,501.60	₱366,467.15	SPARTAN1M is intended to support environmental conservation and climate change mitigation by establishing a sustainable tree-planting initiative at Batangas State University. It aims to **plant 1.2 million trees by 2030, ensuring a reliable seedling production system to overcome supply challenges and enable strategic, timely, and well-planned afforestation efforts.
3	Development of a short course as capacity-building training	ESO	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱40,000.00	₱40,000.00		This project involves the development of a short course designed as a capacity-building training program to enhance skills and knowledge in a specific field. It focuses on practical, targeted learning experiences to empower participants with industry-relevant competencies. By integrating expert-led instruction and hands-on activities, the course aims to foster professional growth and strengthen institutional or community capabilities.
4	Model or Framework to champion engagement of students, faculty, families and communities in pressing social concerns	ESO	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱20,000.00	₱20,000.00		This project develops a model or framework to actively engage students, faculty, families, and communities in addressing pressing social concerns. It fosters collaboration through structured programs, service-learning, and advocacy initiatives, ensuring meaningful participation from all stakeholders. By promoting social responsibility and collective action, the framework aims to create sustainable solutions and strengthen community impact.
5	YAKAGAN	ESO	No	Small Value Procurement	Aug. 2025	Sep. 2025	Oct. 2025	Nov. 2025	Income	₱20,000.00	₱20,000.00		The YAKAGAN Volunteer Program at Batangas State University offers a structured platform for volunteer engagement in community extension, institutional development, and gender and development (GAD) initiatives. It promotes networking, hands-on learning, and social responsibility, ensuring meaningful contributions to university-led programs. Guided by the Volunteer Management System (Board Resolution No. 323, s. 2016), the program fosters organized and impactful participation.
